Subject: Application for Student Internship / Part-Time Position

Dear Hiring Manager,

I am writing to apply for a student internship or part-time position within your organization. I am currently pursuing a master's degree in Artificial Intelligence at IU Berlin and am seeking an opportunity to apply my academic knowledge and professional experience in a practical working environment.

Through my previous roles as a Software Developer at Ocean Cognizance Pvt. Ltd. and Sulzer Pumps India, I gained hands-on experience in software design, backend development, API integration, and process optimization. I have worked extensively with Python, C++, and web technologies, and I am comfortable contributing to both technical and operational tasks in fast-paced, team-driven environments.

I am a motivated and adaptable individual who enjoys learning new technologies, solving problems, and contributing to meaningful projects. I bring a strong work ethic, attention to detail, and a positive attitude. I am also flexible with working hours and available for both short-term and long-term opportunities.

Thank you for considering my application. I would welcome the opportunity to discuss how my skills and enthusiasm can contribute to your team.

Kind regards,

Rohit Kumar Gupta
